

A. Offline tunable safety data acquisition

Safety-critical
Sampling based predictive control

Sampling-based
Controller

DTCBF
Multi-step safety

In-distribution

B. Online generation and verification loop

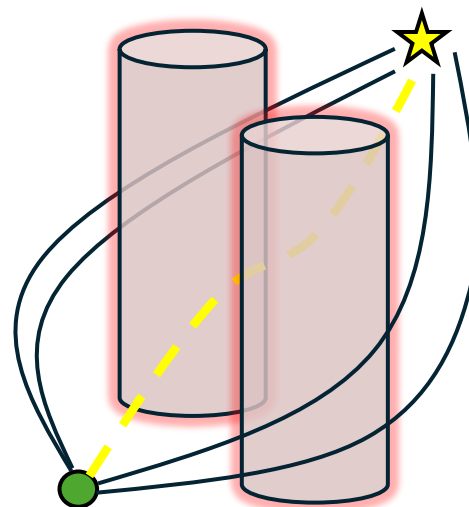

Self-generating
Safety-critical
Receding horizon generative control

Generative
Model

Verifier
DTCBF
Multi-step safety

Uncertainty on safety

Out-of-distribution

self-generate
& query

verify
& update

Uncertainty on safety
